

The diagram illustrates the decomposition of a 12660-dimensional space into two 3210-dimensional subspaces. It consists of two horizontal lines. The top line has tick marks at the beginning, middle, and end, with labels 3410, 12660, and 3410 above them. The bottom line has tick marks at the beginning, middle, and end, with labels 100, 3210, 100, 12660, 100, 3210, and 100 below them. Vertical lines connect the tick marks on the top line to the corresponding tick marks on the bottom line, showing that the 3410-dimensional subspaces from the top line correspond to the 100-dimensional subspaces from the bottom line, and the 12660-dimensional space from the top line corresponds to the 3210-dimensional subspaces from the bottom line.

|                                                                                       |                                                    |
